**TO: ALL TRANSPORT COMPANIES,  
LOGISTICS COMPANIES,  
BOOKING AGENCIES.**

Dear Customer, partners,

Since the beginning of the year, also due to the ongoing geopolitical tensions, **we are continuing to witness** that families, businesses and transport and logistics companies are suffering from **further increases of the prices of electricity, gas and oil.**

Unfortunately, as well known, the cost of oil and therefore **the price of the maritime bunker continues to record an uncontrollable surge along with a simultaneous increase of fixed costs**, mainly at detriment of shipping companies operating Motorways of the Sea and cabotage services for the islands through the deployment of Ro-Ro and Ro-Pax vessels.

In particular, we are continuing to witness a **dramatic increase of the price of oil per barrel**: in fact, since last February 2021, our Group have seen the value of **Brent increasing from 56 dollars a barrel to around 95 dollars a barrel today** (with an increase of **+ 70%**), an increase in the **VLSFO from \$ 422 per ton to about \$ 704 per ton (about + 70%)** and the **HSFO from \$ 327 per ton to about \$ 504 per ton (+ 54%)**.

In order to continue to ensure the high-quality standards of our services, we are therefore forced to apply **with effect from 01 March 2022, a BAF adjustment applicable to all full and empty units as per attached table, (Annex 1), to partially cover the extra-costs that our Group are suffering.**

Finally, we take the occasion to remark that **our Group confirms full support to national and international environmental policies aimed at reducing CO2 emissions** in order to continue to ensure the **commitment to environmental sustainability**, through heavy investments for the renewal of the fleet and the adoption of technologies highly innovative for better safeguarding the environment.

**Sincerely,  
The Commercial Direction**
